ROMP! An intergenerational expressive movement party, catered to the client's needs, which integrates group building games, spontaneous thinking, voice, and art - all set to live music. This program has been offered at weekend retreats, company parties, fundraisers, in-school residencies and for birthday parties. It has been shown to create community, return a sense of artistry and wonder to the so-called "daily grind", and enhance emotional intelligence and self awareness. Bottom line: it is FUN!!  
Value for 90 minutes (2 facilitators and a musician) \$100.

Tapestry - similar to our ROMP! With more depth for adults, this six week program is offered locally in a studio space and accompanied by live, improvised music. Drop-in's welcome. Value \$8 class; \$48 for the series.

The Body Now Workshop - an in-depth, experiential, day long retreat that explores the Turning the Wheel modality for those who would like to share it in their community and place of work. This workshop is for teachers, therapists, counselors, dancers,

writers, or anyone who has an interest in infusing their own lives and communities with well being and creativity. Currently, this workshop takes place three times a year and is led by our founder, Alana Shaw. A Turning the Wheel teaching manual developed over the last twenty years by Alana is made available to participants. Value (Alana Shaw facilitating, and a musician) \$95.

School Residencies - we offer residency programs in schools and community centers. Programs are available in the performing arts, arts integration with other topics/themes/curriculum and health and wellness. Participants explore self-awareness, self care and self expression using the tools of art, writing, group sharing and movement. Value varies depending on the length of the residency. Please inquire at [lulu@turningthewheel.org](mailto:lulu@turningthewheel.org) if interested.

Turning the Wheel Missoula welcomes your donation to fund programming that creates vibrant, healthy communities using movement and creative expression as the catalyst for social change..

toys, theater and a video game corner. If you are a We Trade member coming to Lil' Griz for the first time, be sure to bring your ID card. Our employees are trained to verify that you're a We Trade member on the first appointment.

Come Explore With US! At Lil' Griz preschool we base the curriculum on the children's curiosities and use our environment to help those curiosities blossom into an interest and understanding of the topic. Through the child's exploration and teacher guided activities we hope to help each child find in themselves a passion for learning! Class runs for three hours and is a blend of large and small group activities. The Lil' Griz preschool operates under an emergent curriculum always keeping primary education goals in mind (early reading, writing, and math skills). The teachers are ever planning and changing the lessons and environments based on what the children are most passionate about. This type of curriculum is not only exciting for the children but also empowering.

Play, Wonder, Discover. Ten weeks of FUN! Sign up for a single week or for ten (different theme each week so children signing up for more than one week won't get bored). Your child will explore the wonderful things that the city of Missoula has to offer in the summertime. The goal of the Lil' Griz Summer Camp is to provide a safe, well-supervised and fun experience for your child. We maintain low staff/child ratios and well organized activities. Daily field trips include active and community based activities. Please visit our website to find out more information including the themes for each week.

ROMP! An intergenerational expressive movement party, catered to the client's needs, which integrates group building games, spontaneous thinking, voice, and art - all set to live music. This program has been offered at weekend retreats, company parties, fundraisers, in-school residencies and for birthday parties. It has been shown to create community, return a sense of artistry and wonder to the so-called "daily grind", and enhance emotional intelligence and self awareness. Bottom line: it is FUN!! Value for 90 minutes (2 facilitators and a musician) \$100.

Tapestry - similar to our ROMP! With more depth for adults, this six week program is offered locally in a studio space and accompanied by live, improvised music. Drop-in's welcome. Value \$8 class; \$48 for the series.

The Body Now Workshop - an in-depth, experiential, day long retreat that explores the Turning the Wheel modality for those who would like to share it in their community and place of work. This workshop is for teachers, therapists, counselors, dancers, writers, or anyone who has an interest in infusing their own lives and communities with well being and creativity. Currently, this workshop takes place three times a year and is led by our founder, Alana Shaw. A Turning the Wheel teaching manual developed over the last twenty years by Alana is made available to participants. Value (Alana Shaw facilitating, and a musician) \$95.

School Residencies - we offer residency

programs in schools and community centers. Programs are available in the performing arts, arts integration with other topics/themes/curriculum and health and wellness. Participants explore self-awareness, self care and self expression using the tools of art, writing, group sharing and movement. Value varies depending on the length of the residency. With the help of the tireless volunteers who give their time and energy to find homes for these homeless pets we hope to be more successful each year in our quest to further the human animal bond. Looking for a loving companion? Here's a great place to start.

Exhibitors at Pet Fest benefit by being able to connect with consumers on a personal level. This creates an opportunity not only for sales, but to build relationships and loyalty. This interaction is perfect for launching new products, sampling and getting your product into the hands of potential consumers. "If you will give it a home, and promise no one will ever take it apart, I will build A Carousel for Missoula." That was the promise Missoula cabinet-maker Chuck Kaparich made to the Missoula City Council in 1991. Kaparich, who had spent many childhood hours on the carousel at Columbia Gardens in Butte, Montana, had already carved four carousel ponies and had purchased an antique frame in thousands of pieces. The Council agreed and Kaparich's dream of A Carousel for Missoula became the dream of a community. The Carousel also is great for birthday parties, has a gift shop, and event space rental.

ROMP! An intergenerational expressive movement party, catered to the client's needs, which integrates group building games, spontaneous thinking, voice, and art - all set to live music. This program has been offered at weekend retreats, company parties, fundraisers, in-school residencies and for birthday parties. It has been shown to create community, return a sense of artistry and wonder to the so-called "daily grind", and enhance emotional intelligence and self awareness. Bottom line: it is FUN!! Value for 90 minutes (2 facilitators and a musician) \$100.

Tapestry - similar to our ROMP! With more depth for adults, this six week program is offered locally in a studio space and accompanied by live, improvised music. Drop-in's welcome. Value \$8 class; \$48 for the series.

The Body Now Workshop - an in-depth, experiential, day long retreat that explores the Turning the Wheel modality for those who would like to share it in their community and place of work. This workshop is for teachers, therapists, counselors, dancers, writers, or anyone who has an interest in infusing their own lives and communities with well being and creativity. Currently, this workshop takes place three times a year and is led by our founder, Alana Shaw. A Turning the Wheel teaching manual developed over the last twenty years by Alana is made available to participants. Value (Alana Shaw facilitating, and a musician) \$95.

School Residencies - we offer residency programs in schools and community centers. Programs are available in the performing arts, arts integration with other topics/themes/curriculum and health and wellness. Participants explore self-awareness, self care and self expression using the tools of art, writing, group sharing and movement. Value varies depending on the length of the residency. Please inquire at [lulu@turningthewheel.org](mailto:lulu@turningthewheel.org) if interested.

Lil' Griz is a drop in children's play center. We're open late 7 days a week (12pm Fri & Sat, till 10 Sun - Thurs) and no reservations are needed. We accept children 18 months to 12 years old. We have play equipment, toys, theater and a video game corner. If you are a We Trade member coming to Lil' Griz for the first time, be sure to bring your ID card. Our employees are trained to verify that you're a We Trade member on the first appointment.

Come Explore With US! At Lil' Griz preschool we base the curriculum on the children's curiosities and use our environment to help those curiosities blossom into an interest and understanding of the topic. Through the child's exploration and teacher guided activities we hope to help each child find in themselves a passion for learning! Class runs for three hours and is a blend of large and small group activities. The Lil' Griz preschool operates under an emergent curriculum always keeping primary education goals in mind (early reading, writing, and math skills). The teachers are ever planning and changing the lessons and environments based on what the children are most passionate about. This type of curriculum is not only exciting for the children but also empowering.

Play, Wonder, Discover. Ten weeks of FUN! Sign up for a single week or for ten (different theme each week so children signing up for more than one week won't get bored). Your child will explore the wonderful things that the city of Missoula has to offer in the summertime. The goal of the Lil' Griz Summer Camp is to provide a safe, well-supervised and fun experience for your child. We maintain low staff/child ratios and well organized activities. Daily field trips include active and community based activities. Please visit our website to find out more information including the themes for each week.
