Lil' Griz is a drop in children's play center. We're open late 7 days a week (12pm Fri & Sat, till 10 Sun - Thurs) and no reservations are needed. We accept children 18 months to 12 years old. We have play equipment, toys, theater and a video game corner. If you are a We Trade member coming to Lil' Griz for the first time, be sure to bring your ID card. Our employees are trained to verify that you're a We Trade member on the first appointment.

Come Explore With US! At Lil' Griz preschool we base the curriculum on the children's curiosities and use our environment to help those curiosities blossom into an interest and understanding of the topic. Through the child's exploration and teacher guided activities we hope to help each child find in themselves a passion for learning! Class runs for three hours and is a blend of large and small group activities. The Lil' Griz preschool operates under an

emergent curriculum always keeping primary education goals in mind (early reading, writing, and math skills). The teachers are ever planning and changing the lessons and environments based on what the children are most passionate about. This type of curriculum is not only exciting for the children but also empowering.

Play, Wonder, Discover. Ten weeks of FUN! Sign up for a single week or for ten (different theme each week so children signing up for more than one week won't get bored). Your child will explore the wonderful things that the city of Missoula has to offer in the summertime. The goal of the Lil' Griz Summer Camp is to provide a safe, well-supervised and fun experience for your child. We maintain low staff/child ratios and well organized activities. Daily field trips include active and community based activities. Please visit our website to find out more information including the themes for each week.

We have play equipment, toys, theater and a video game corner. If you are a We Trade member coming to Lil' Griz for the first time, be sure to bring your ID card. Our employees are trained to verify that you're a We Trade member on the first appointment.

Come Explore With US! At Lil' Griz preschool we base the curriculum on the children's curiosities and use our environment to help those curiosities blossom into an interest and understanding of the topic. Through the child's exploration and teacher guided activities we hope to help each child find in themselves a passion for learning! Class runs for three hours and is a blend of large and small group activities. The Lil' Griz preschool operates under an emergent curriculum always keeping primary education goals in mind (early reading, writing, and math skills). The teachers are ever planning and changing the lessons and environments based on what the children are most passionate about. This type of curriculum is not only exciting for the children but also empowering.

Play, Wonder, Discover. Ten weeks of FUN! Sign up for a single week or for ten (different theme each week so children signing up for more than one week won't get bored). Your

child will explore the wonderful things that the city of Missoula has to offer in the summertime. The goal of the Lil' Griz Summer Camp is to provide a safe, well-supervised and fun experience for your child. We maintain low staff/child ratios and well organized activities. Daily field trips include active and community based activities. Please visit our website to find out more information including the themes for each week.

The DDC is a mirror to the Missoula community. Our classes vary depending on what artists are in the area. We schedule an average of 35 classes a week and they vary from year to year. There are classes for kids, teens and adults. Some classes are registration classes for a set period of time, while others are designed for our clients to drop in whenever they desire. Classes range in ability level from beginner to advanced.

The goal of every class is to help people feel good about themselves, connect with community and have fun. To that end, all classes on the schedule are structured so that every individual in class can feel comfortable and accepted. We believe in the joy of dance for a healthy mind, body and soul. Some people use classes at the DDC as a substitute for the gym. In fact, many DDC clients have boasted healthy weight loss and toned and fit. New friendships have been made, fruitful collaborations forged, and most people discover a tremendous sense of community at the DDC.

The DDC aspires to create partnerships with organizations by teaching and performing for fundraisers, fairs and festivals. We are expanding our reach everyday and are always open to new ideas. Since its inception, the DDC has appeared at dozens of community events, assisted living homes, schools, and businesses. Our goals reach far beyond the walls on Main Street Missoula and will continue to build everyday.

For more information on the programs the DDC provides, please browse around the web site, but don't ever hesitate to call. We are always open to new ideas and love to hear your feedback! Downtown Dance Collective has performances featuring many artists throughout the year.
